**WHAT,  
WHO, HOW  
& WHEN**

Brand new beauty loot – and what the hell to do with it!

*Tip:* When rocking a statement nail like this, keep the finger-bling to a minimum (one or two rings) and let your nails do the talking.

**WHAT:** *Hair removal*  
INTENSE PULSE LIGHT (IPL)

**WHO:** Effective on most people, but this hair removal system is best suited to those with fair to medium skintones and darker unwanted hair.

**HOW:** IPL kills the hair at the follicle. Repeated use means the hair is permanently removed.

**WHEN:** At home. Be sure to do a safety patch-test first, and always remember to follow the manufacturers' instructions.

E-ONE, \$2695.

**WHAT:** *Floral perfume*

**WHO:** Women who resonate with pretty fragrances.

**HOW:** Spritz behind the ear and on the wrists in the morning. Then reapply midafternoon, as scents do fade.

**WHEN:** Florals team nicely when you're wearing a girly outfit – or want a light, romantic aroma.
