

Beauty Update

THIS ISSUE WE LOOK AT VARIOUS DIFFERENT OPTIONS FOR HAIR REMOVAL. WHETHER YOUR REASON FOR HAIR REMOVAL IS TO SHOW OFF YOUR SILKY SMOOTH LEGS COME SUMMER OR YOU'RE A hardcore cyclist and having hair-free legs makes it easier to clean road rash, we've got the products for you.

NO MORE HAIRY SITUATIONS!

The first and only medically approved hair removal device, certified for personal use at home, is now available in Australia and New Zealand. The E-One can be used day or night in any room of the house and conforms to the highest safety standards.

Using Intense Pulsed Light (IPL) hair removal technology, the E-One is easy to use, safe, convenient and more cost effective than countless trips to the beautician.

Managing Director of France Cosmetic Thierry Devisy said they were thrilled to bring the E-One to Australia and New Zealand especially as it was a finalist in the prestigious French Innovation of the Year Awards for 'Best Product of the Year' in 2007.

"With such a beautifully warm climate people don't want to have to constantly worry about hair removal, with the E-One you no longer have to. Enjoy professional results of smooth, supple, hair free skin whilst avoiding the mad rush to salon appointments," he said.

"Unlike most other professional IPL machines which require you to wait 2 to 4 weeks before being exposed to the sun, the E-One's innovative technology enables you to go in the sunshine whenever you wish, without risk of marks or scars due to hair removal - Of course we always recommend using sunscreen regardless of what method you use to remove hair.

"The E-One can also be used as frequently as the bulkier salon IPL machines, despite its small, convenient size. The revolutionary technology enables it to be safely used as often as you like."

Developed and manufactured in France, the E-One is the only hair removal device for home use in the world with a medical grade CE certification, meeting global consumer safety, health and environmental requirements and standards and registered by the Therapeutic Goods Administration in Australia.

The team at NZ Multisport has had the opportunity to try the E-One over the last few months and have been delighted with the results. The E-One is very easy to use and hair removal results have been pleasing. The E-One provides a great alternative to making frequent visits to the beautician and has the benefit of providing longer term results than other methods of hair removal such as shaving.

Currently available in Lime Green, Dark Blue or Dark Pink, the E-One can be purchased online at for AUD\$2,890.00 (about NZD\$3,600.00) and payment options are available.

VENUS EMBRACE

Not only does smooth skin look great, it makes you feel great too! There's nothing more sensuous than touchably smooth skin. There's also nothing less sensuous than rashes and razor burn, so make sure you choose a quality razor to give you the best results. We're loving the new pink Venus Embrace – not only does it give you a super-close shave, but when you purchase one of these pretty-in-pink razors, 50c is donated to the New Zealand Breast Cancer Foundation. We all know what a fab job the NZBCF does, so why not give them a helping hand while giving yourself great skin – it's a win-win!

JULIENNE, GERANIUM FILM WAX

Julienne, Geranium Film Wax for legs and body is effective on short, coarse hair. It contains Geranium Oil to calm even the most sensitive skin and does not contain preservatives or harsh chemicals.

Julienne's Geranium Film Wax moulds perfectly to the skin giving you smooth, silky, stubble free skin for up to six weeks.

Julienne's Geranium Film Wax kit also comes with post-wax soothing creme with Chamomile Extract, to calm and comfort the skin whilst dissolving wax residue.

Julienne Geranium Film Wax has an RRP of \$29.99 for a 400g waxing kit and is available at pharmacies nationwide.

GEOSKINCARE AFTERSHAVE BALM FOR MEN

A cooling aloe vera gel that contains a unique combination of certified organic ingredients to soothe and calm the skin and help to eliminate post shaving roughness. Made in New Zealand and recommended for all skin types. Available at selected pharmacies nationwide - RRP \$39.85.

AVALON ORGANICS

Using a shaving cream to help rid that nasty growth of winter hair should be an invigorating experience, leaving you feeling well and truly spring cleaned! When used regularly, instead of saving for that special occasion, shave creams can do all the world of good to soothe, smooth and repair your freshly shaven skin.

Avalon Organics Moisturizing Cream Shave is a buttery soap-free shaving cream, formulated with genuine organic extracts to nourish your skin while providing a perfect lift and glide for a smooth, close and skin rewarding shave. Your skin will plead before shaving to be coated with the Beat Glucan enriched formulation which will ensure that any nicks or irritations are speedily helped to be soothed and repaired.

RRP \$12.95
